Education

2023 - Present	**IIIT Sri City** B.Tech - Computer Science and Engineering	(CGPA: 6.9)	Chittoor, AP
2021 - 2023	**Narayana Junior College** MPC	(Percentage: 90.0%)	Hyderabad, TS
2018 - 2021	**New Era High School** Secondary School Certificate	(GPA: 10/10)	Hyderabad, TS

Projects

Build and Beyond (ConTech Platform) Full-Stack Web Platform
- Spearheaded the development of a **MERN stack** platform, effectively reducing the contractor discovery process time by **40%** for clients.
- Architected a real-time bidding engine capable of handling **50+ simultaneous users**, fostering a transparent and competitive marketplace.
- Integrated a secure payment gateway to process project milestones, ensuring **100% transaction integrity** and trust between parties.

Smart Drone Control Simulation Python, PyTorch, AirSim, RL
- Deployed an autonomous UAV navigation system achieving **95%+ collision avoidance** accuracy via predictive depth sensor analysis in AirSim.
- Formulated a Deep Reinforcement Learning model (PPO), optimizing flight paths to reduce simulated energy consumption by **15%**.
- **Engineered intelligent obstacle classification logic to distinguish structures vs. vegetation, enabling complex maneuvers and autonomous return-to-home functionality.**
- Constructed a real-time telemetry GUI with adaptive speed control, decreasing pilot reaction latency by **300ms** during manual overrides.

Personal Finance Tracker React, Node.js, MongoDB
- Designed a responsive Single Page Application (SPA) that visualizes **1,000+ monthly transaction data points** for user insights.
- Established secure **JWT authentication** and RESTful APIs, reducing unauthorized access risks and ensuring seamless session management.

Technical Skills

Languages	Java, Python, C, C++, JavaScript (ES6+), SQL
Frameworks	React.js, Node.js, Express.js, Redux, PyTorch, Tailwind CSS
Developer Tools	Git, GitHub, VS Code, Postman, Linux (Ubuntu), MySQL
Concepts	Data Structures & Algorithms (DSA), OOP, DBMS, OS, System Design, ML
Coursework	Computer Networks, Operating Systems, Database Management Systems

Position of Responsibility

Editing Domain Lead Mis-en-scène Club
- Directed post-production workflows for university projects and mentored **20+ junior members** in advanced video editing techniques.
- Orchestrated intra-college editing competitions, managing timelines and judging criteria for **50+ participants**.

Accommodation Team Lead Abhisarga (Cultural Fest)
- Managed logistics for a major cultural fest, overseeing hospitality and inventory for **500+ guests** and dignitaries.
- Coordinated a team of **8 volunteers** to ensure seamless room allocation and optimized guest service operations.

Achievements

HackSamarth 2024 Participant
- Competed in a highly competitive national-level hackathon among **100+ teams**; collaborated to prototype innovative solutions for real-world problems under tight deadlines.

Flipkart GRiD 6.0 Software Development Track
- Qualified for the Software Development track in India's flagship challenge, solving complex algorithmic problems with **O(n) efficiency**.
